REGULATIONS INTERNATIONAL COMPETITION

65TH FOKLORE SINGING FESTIVAL OF VIÑA DEL MAR 2026

FOLKLORIC GENRE RULES 65TH VIÑA DEL MAR INTERNATIONAL SONG FESTIVAL 2026

The Promotion Committee of the 65th Festival of Viña del Mar, announces this folkloric music competition that will take place in the amphitheater of Quinta Vergara in the city of Viña del Mar, Chile. The Festival takes place from the 22th of February to 27th of February of 2026 and is based on the following principles.

1. OBJECTIVE

The main objective of the Festival of Viña del Mar is to promote the development and stimulate popular music worldwide it seeks to be a platform of exhibition and recognition for every author, composer and emergent interpreter who has an outstanding work in the musical area. Hereby, the Festival of Viña del Mar 2026 is a contest that seeks to recognize Chilean and international music, its transcendence in the world, promoting its artistic development through the promotion of cultural exchange between the participating countries.

2. INVITATION

The Promotion Committee of the Festival of Viña del Mar 2026 invites Chilean and foreign Authors, Composers and Performers to participate in the selection process of the foreign and Chilean songs that will be part of the Competition - International Gender- at the 65th Viña del Mar International Singing Festival of Viña del Mar 2026.

The process of selecting the songs, and all aspects related to the participation of foreign and Chilean performers in the International Gender, must be governed by the procedure indicated in these regulations. In order to promote and disseminate this contest in the national territory, these regulations will be published permanently on the websites [www.elfestival.tv](http://www.elfestival.tv) and [www.munivina.cl](http://www.munivina.cl). These will also be announced through different record companies based in Chile.

For foreign countries, a press release will be sent together with these rules to the most representative media, authorial societies and music labels of the five (5) continents. Its dissemination will be carried out through the respective authors' societies, embassies or consulates of Chile abroad and on the websites [www.elfestival.tv](http://www.elfestival.tv) and [www.munivina.cl](http://www.munivina.cl). Likewise, this competition will be disseminated through the production and transmission of advertising spots on the screens of MEGAMEDIA, associated media and international television broadcasters.

### 3. PARTICIPATING SONGS

A total of six (6) songs will participate in the Folkloric Genre Competition of the Viña del Mar International Song Festival, out of which there will be five (5) foreign songs (only one song per country) and one (1) representing Chile. Out of these five (5) songs, special quotas may be reserved for countries whose representative have been chosen through a foreign television program or similar, after a special "scouting" call to select the song that will represent that country at the Festival of Viña del Mar 2026, or through special invitations. If such a program is developed, this will be the only way for the nationals of that country to participate in the selection of songs for the competition. The Chilean song could also be chosen through a television program from Chile, and, in that case, the Chilean song would be chosen through that program. Both the Municipalidad of Viña del Mar and the organizers and production of the Festival will ensure the correct realization of this program, especially with regards to the choice of the participating songs and definition of the winning song that will represent each country in this competition.

The criteria to determine the country to which a song belongs will be the nationality of the author of the song. In the event that it is a co-authorship in the lyrics of the song, the participants must indicate the nationality of one of these authors in the registration form, in order to establish the country that the song will represent.

The nationality of the performer will not be considered for the purposes of determining the country that the song in competition represents. Participating songs must meet the following requirements:

- 3.1 For the purposes of this competition, a folk song shall be understood as any musical work that represents or is inspired by popular-rooted musical expressions belonging to a community, territory, or country. This representation may be conveyed through its rhythm, musical form, lyrics, instrumentation, or themes. Songs that incorporate elements of contemporary production or modern stylistic fusions will also be accepted, provided they maintain a clear and substantial connection to the folklore of the country or region they represent. These hybrid proposals must reflect respect for and inspiration from musical traditions, whether in an explicit or conceptual manner.
- 3.2 The songs that participate in the Folkloric Genre competition must not have participated in any international and/or national festival prior to February 22, 2026.
- 3.3 Participating songs may not exceed 3 minutes (180 seconds) in length.
- 3.4 The Author and/or Composer and/or Performer may submit a maximum of two (2) songs and must choose to participate only in one category (international or folk) and only one (1) of them may be pre-selected.
